

# How can countries state interest and record submission cycle wish in SANITY?

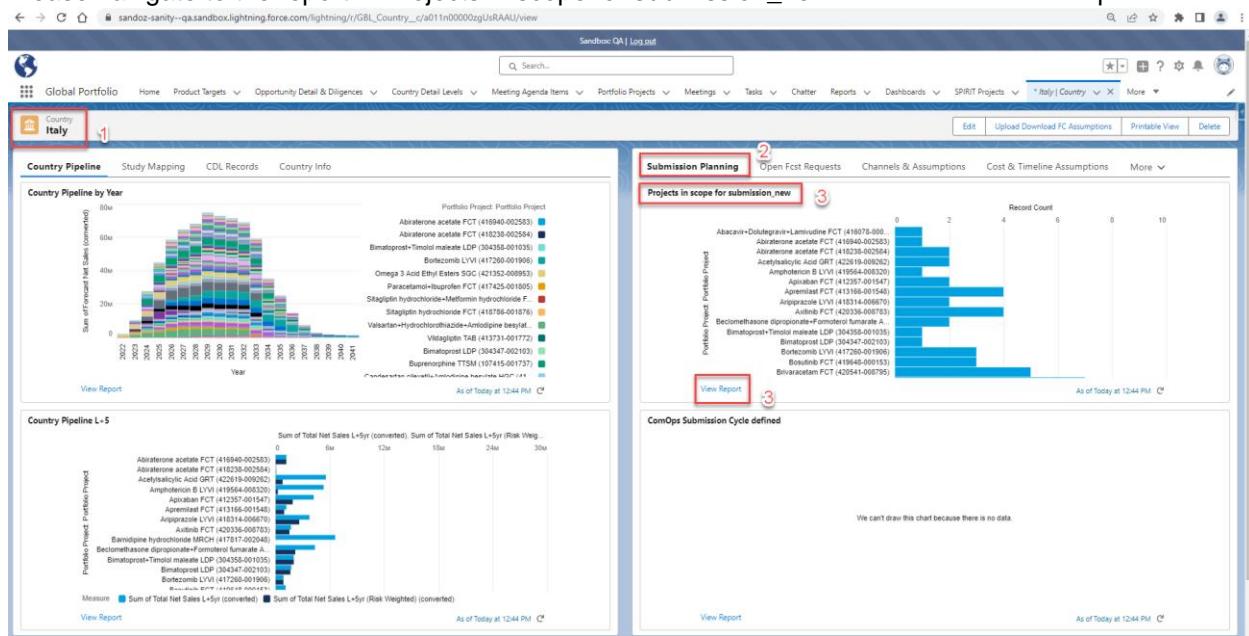

The fields ‘Country Interest’ and ‘Country Submission cycle’ sits on **Country Strength** object.

Country interest turns to ‘Yes’ automatically once you submit a forecast for that strength.

You can also express Country Interest independent of forecasting process and that process has been explained in this document. You can also record Country submission cycle in Country Strength records, which has also been explained below.

There are two ways to do this exercise –

- a. Manually changing the values in the Country strength records
- b. Directly editing in the report by enabling ‘Field Editing’
  - a. Manually changing the values in the Country strength records
  1. Please go to your Country Home page.
  2. Please navigate to the tab – ‘Submission Planning’.
  3. Please navigate to the report – ‘Projects in scope for submission\_new’ and click on ‘View Report’.

In this report, you see every project strength combination for your country (CDL Country Project Status not equal to Discontinued), wherever either there is a forecast, or not.

Hint – If you see a value in the column – ‘Forecast First Launch Year#’ there is a forecast in the CDL. If this column is blank or ‘0’, there are no forecasts in the CDL.

4. Please navigate to the corresponding country strength record to express Country Interest or record Country submission cycle.

Product Source	Country Name	Country Strength	Strength (Project)	Current planned Launch Date	Forecast First Launch Year#	Country Interest	Country Submission cycle	ComOps Interest	ComOps S...
Internal	Italy	600 mg + 50 mg + 300 mg IT Italy	600 mg + 50 mg + 300 mg	-	2,029	-	-	-	-
BD&L	Italy	500 mg IT Italy	500 mg	9/30/2022	2,022	-	-	-	-
BD&L	Italy	500 mg IT Italy	500 mg	9/6/2022	2,022	-	-	-	-
BD&L	Italy	250 mg IT Italy	250 mg	9/6/2022	2,022	-	-	-	-

Internal	Italy	2.5 mg IT Italy	2.5 mg	2/1/2024	2,024	No	-	-	-

5. Please record 'Country Interest'.
6. Please record 'Country Submission Cycle'.
7. Please click on 'Save'.

Your country interest and country submission cycle has been recorded for that particular project strength combination. If you refresh your report, you can see the updated value.

b. Directly editing in the report by enabling ‘Field Editing’

1. Please go to your Country Home page.
2. Please navigate to the tab – ‘Submission Planning’.
3. Please navigate to the report – ‘Projects in scope for submission’ and click on ‘View Report’.

The screenshot shows the ComOps software interface for the 'Country Pipeline' report. At the top, there's a navigation bar with various tabs like 'Global Portfolio', 'Home', 'Product Targets', etc. Below the navigation bar, the main content area has a title 'Country Pipeline' and sub-titles 'Study Mapping', 'CDL Records', and 'Country Info'. On the left, there's a chart titled 'Country Pipeline by Year' showing 'Sum of Total Net Sales (converted)' over time from 2002 to 2008. To the right of the chart is a list titled 'Projects in scope for submission' with several items. At the bottom, there's another chart titled 'Country Pipeline L+5' and a section for 'ComOps Submission Cycle defined'. Red boxes highlight the 'Submission Planning' tab, the 'View Report' link next to the first chart, and the 'View Report' link next to the project list.

In this report, you see every project strength combination for your country (CDL Country Project Status not equal to Discontinued), wherever either there is a forecast, or not.

Hint – If you see a value in the column – ‘Forecast First Launch Year#’ there is a forecast in the CDL. If this column is blank or ‘0’, there are no forecasts in the CDL.

4. Please click on 'Enable Field Editing'

The screenshot shows a SAP Fiori application window. At the top, there's a navigation bar with links like 'Global Portfolio', 'Home', 'Product Targets', etc. Below the navigation is a search bar and a toolbar with icons for search, refresh, and edit. The main content area has a title 'Report: Country w CDL w Country Strength Projects in scope for submission\_new'. It includes a note: 'This report shows all the CDLs, which have at least one forecast flagged as 'Latest Fct=YES' or, there are values in Country/ ComOps Interest or Country/ ComOps Submission cycle. This report would will show all the CDLs in scope of Submission planning.' A red box highlights the 'Enable Field Editing' button in the top right corner of the report area. A red number '4' is placed near the bottom right of the chart area.

5. Please navigate to the correct Country Strength record, where you want to change the value. And click on the field you want to edit.

6. Please choose the option from the dropdown you want to select.

The screenshot shows the same SAP Fiori application window after enabling field editing. The 'Enable Field Editing' button is now greyed out. The 'Country Interest' column in the table has a red box around it, and a red number '5' is placed near the top left of the dropdown. A red number '6' is placed near the bottom right of the dropdown. The table data is identical to the previous screenshot.

7. Unsaved changes are marked highlighted in Yellow. Please click on 'Save' button to save your changes.

The screenshot shows a report titled "Report: Country w CDL w Country Strength". The report displays a bar chart showing the count of projects for different strength levels (0, 0.5, 1, 1.5, 2, 2.5, 3, 3.5, 4, 4.5, 5, 5.5, 6, 6.5, 7, 7.5, 8, 8.5, 9, 9.5, 10) and a table of project details. The table includes columns for Portfolio Project, Product Source, Country Name, Country Strength, Strength (Project), Current planned Launch Date, Forecast First Launch Year, Country Interest, Country Submission cycle, ComOps Interest, and ComOps Si. A red box highlights the "Save" button at the bottom right of the table.

Portfolio Project	Product Source	Country Name	Country Strength	Strength (Project)	Current planned Launch Date	Forecast First Launch Year	Country Interest	Country Submission cycle	ComOps Interest	ComOps Si
